

DMB 155 ROCK BREAKER

DEMCO. Quickly becoming known as the demolition equipment others are judged by, the DEMCO attachments have proved themselves in New Zealand's conditions. With great features such as the large accumulator or the mono block housing and the super shock absorber elements, the DEMCO works hard and protects the carrier all in one. It all adds up to a profitable investment that pays for itself.

EXTRA POWER, MAXIMUM PERFORMANCE & RELIABILITY

"the breaking power of the world"

SPECIFICATIONS

MODEL	DMB 155
Working Weight	1650 Kg
Carrier Weight	18 – 26 Ton
Oil Flow	100 – 180L/m
Operating Pressure	135 Bar
Impact Energy	2800 Joule
Impact Frequency	360 – 650 Bpm
Tool Diameter	125 mm
Guaranteed Noise	130 dB(A)
(Actual value +3)	

SAMPLE PICTURE

- Large fully sealed accumulator for smooth operation and long maintenance intervals.
- Low operating pressure for economical fuel consumption of carrier excavator
- Power valve ensures all blows are at full power
- Blank Fire Protection
- Good sound absorbing elements inside the housing for sound sensitive applications
- Many optional extras available including Auto Greasing & Air Compressor for under water applications
